# Lucas Lopez Saaied

## Junior Full Stack Developer

Mar del Plata, Argentina · lucaslopezsaaied@gmail.com
linkedin.com/in/lucas-lopez-saaied · github.com/LucasLopz

## PROFILE

I hold an Associate Degree in Programming from UTN. I build web applications with Java, JavaScript, Angular, HTML and CSS, using MySQL databases and GitHub for version control. I have shipped two websites that are live and in use today. I am currently training in QA and looking for my first role as a Full Stack Developer or in a related IT position.

## PROJECTS

### We Insure Downtown Miami

Developer · August 2026 · weinsure-miami.com

- Rebuilt the website of a Miami insurance agency from scratch, replacing the previous page built with a CRM's visual editor.
- The site offers a step-by-step quote flow by coverage type, content in English, Spanish and Italian, a blog and an FAQ.
- Technologies: JavaScript, REST APIs, front end on Vercel and back-end services on Railway.

### Associates Realty

Developer · August 2026 · associates-realty.net

- Improved the website of a Miami real estate services network to bring in clients: calls to action, forms, lead capture and direct contact channels.
- Worked on content in three languages with search visibility in mind (SEO and AEO).
- Technologies: TypeScript, REST APIs, front end on Vercel and back-end services on Railway.

## SKILLS

**Languages:** Java, JavaScript, C
